

End-of-Life Notice: ‘G’ ‘8’ Conductive Foam

February 1, 2016

As part of our product lifecycle management process the conductive foam products with material code beginning with ‘G’ or ‘8’ will be phased out by end of 2016. Orders will be accepted for 6 months commencing with the date of this notice. Scheduled deliveries will be permitted up to December 31, 2016. Thereafter, these products will be considered obsolete and no additional deliveries will be made. As a replacement Laird recommends using our improved conductive foam products, EcoFoam™ series CF500, CF700 and CF800.

Example finished part number: 5032EAG**1W**00532

EOL Material	EcoFoam™ Series	Color	UL Flame Rating	Available Thickness (mm)	Example Part Number 1mm Thick *See datasheet
G0W, G0X, 80W, 80X	CF500	Grey	No	0.3, 0.5, 0.7, 1.0, 1.5, 2.0, 2.5, 3.0, 3.5, 4.0	CF5 10 AA01050200
G1W, G1X, G2W, G2X, 81W, 81X, 82W, 82X	CF700	Grey	UL94 V-0	0.5, 1.0, 1.5, 2.0	CF7 10 AA01050200
	CF800	Black	UL94 V-0	0.5, 1.0, 2.0	CF8 10 AA01050200

Laird is committed to provide any support to ensure a flawless transition to our alternative products. Datasheets are attached for your reference. Please contact your Laird representative for any questions and sampling requests.
