

Final Product Change Notification

Issue Date: 05-Jul-2013 Effective Date: 01-Sep-2013

Here's your personalized quality information concerning products from NXP.

For detailed information we invite you to <u>view</u> this notification online

201109002F01

Management Summary

Change from 4 inch to 6 inch MR wafer fab process at DHAM.

Change Category

Wafer Fab Assembly **Product Marking** Design process **Process** Wafer Fab Assembly Electrical spec./Test Mechanical materials Materials coverage Specification Wafer Fab Test Location Assembly Packing/Shipping/Labeling location Location

6 inch LAM AL Process Transfer for Wheelspeedsensor OH1xx Types

Details of this Change

- MR wafer process move from 4 inch to 6 inch
- Use of 6 inch LAM etching process
- Use of 6 inch stepper lithography instead of 4 inch contact lithography
- Use of state of the art PAS-stepper lithography instead of older Utratech-stepper for ASIC

Why do we Implement this Change

- Improving quality and safeguarding supplies in future
- Capacity limitation / discontinuation 4 inch fab for MR
- Process improvment by state of art lithography
- Standardization of equipment
- Improvement of product characteristics

Identification of Affected Products

By lot, date code and customer information on packing labels

Product Availability

Sample Information

Samples are available upon request

Production

Planned first shipment 01-Sep-2013

Impact

no impact to the product's functionality anticipated.

Data Sheet Revision

No impact to existing datasheet

Disposition of Old Products

Existing inventory will be shipped until depleted

Additional information

Timing and Logistics

Your acknowledgement of this change, conform JEDEC JESD46 D, is expected till 04-Aug-2013.

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please <u>contact NXP</u> <u>"Global Quality Support Team"</u>.

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

Name Ingobert Gorlt

Position Customer Quality Manager e-mail address ingobert.gorlt@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.

Customer Focus, Passion to Win.

NXP Quality Management Team.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.

A global semiconductor company with operations in more than 25 countries, NXP posted unaudited revenue of \$4.36 billion in 2012.
