**Subject:** Product Change Notice

---

Dear Telit Partner,

Telit would like to inform all of you about the replacement of the following product P/N's:

Product Name	Old P/N	Replacement P/N
<b>BlueMod+SR/AI Module</b>	53231-25	<b>53231-26</b>
<b>BlueMod+SR/AP Module</b>	53252-23	<b>53252-24</b>
<b>BlueEva+SR/NFC/AI Evaluation Kit</b>	53249-16	<b>53249-17</b>

The update includes: FW upgrade from 1.543 to 1.545

- New Feature:
  - AT+BMUX command should be suppressed in the online command mode
  - Any character input aborts active process of +BINQ or +LESCAN command
  - AT+LESCAN shows only devices which support active scan are discovered
  - Change format of AT+LESCAN results (compatible to BlueMod+S)
  - Refuse support of TIO V1.0

Telit guarantees that the new software versions support all the features of the previous.

Following the Telit family's concept and long-term availability commitment to our customers, Telit guarantees that this change will not affect your current design and hereby declares that the new variant will be fully compatible with the old one.

This PCN will have immediate effect, and the orders received with the old P/N will be converted into the new P/N when the old P/N runs out of stock.

Please contact your regional Telit Application Engineering Team for any technical question. For any additional information regarding this notice please contact your Regional Sales Director.

Best regards,

---
