Product Discontinuation Notice - Last Time Buy of PKU4107C

PKU-C series is a mature product that was released in 2011. It's still being used globally but its end-of-life is being hastened by EOL of a critical IC from Vishay. Flex Power Modules (FPM) had placed a large LTB of the IC but due to high demand in 2020, our supply is projected to run out in 10-12 mos. instead of 2-3 years from now.

FPM has been working to release a higher performing replacement product, PKU-D, with the first variant (12V) becoming available in 2018. DC/DC-converter technologies and components continuously evolve, offering smaller and more cost-efficient products with equal or better performance compared to older designs. Given the situation with EOL components and a suitable replacement product, Flex Power Modules has taken a decision to discontinue the following products:

PKU 4107C * 6 V, 16.7 A, 100 W

* Including all options Through hole(PI), Surface mount (SI), Positive remote control logic(P), Baseplate(HS), High stand-off(M), Lead length 3.69mm (LA), Lead length 4.57mm (LB), Lead length 2.79mm (LC).

Below table shows the last time buy plan of PKU4107C.

Discontinued PKU product	Last Time Buy	Last Time Delivery
PKU4107C*	1 st Oct 2021	31 st Dec 2021

Commented [NC1]: Could be change by sales according to different customer, but no later than 31st Mar 2022.

Please read the respective Technical Specifications and consult with the local Field Application Engineer for assistance when introducing the new products. The recommended replacement for the discontinued products has higher performance compared to the respective PKU4107C products.

PKU4107C series potential replacement cross reference table

Discontinued PKU product	Vin (V)	Vout (V)	Iout (A)	Replacement	Vout (V)	Iout (A)
PKU4107CPILC	36-75	6	16.7	PKU4917VDPINTLC**	6	16.7
PKU4107CPIHSLA	36-75	6	16.7	PKU4917VDPIHSNTLA**	6	16.7

** Not released yet.
