A6ER DIP Switch - Discontinuation

In an effort to streamline our product offering and focus on popular models of Omron’s line of DIP Switch, OMRON will discontinue the A6ER DIP Switch model series in February 2020. The suggested replacement will be our A6FR model series, which despite differences in color and dimensions, can be considered to be a functional equivalent. Please carefully read through this notification and note the differences. The following details will fully explain the discontinuation and suggested replacement considerations; should you have any additional questions, however, please communicate with the Switch Product Manager.
