2. Content of change

Add an R shape to the base of the lock lever actuator (red part) as shown in the table below. (Ex: MX84B028SF1)

3. Schedule

After approval of the above change by MX84B connector purchasing customers, the change will start from products shipping from May 2022 at the latest.

4. Other

(1) Performance

There is no impact on the specifications and standards in the product specification JACS.

(2) Customer Application

If individual application is required as a result of customer coordination with this TB, please contact IOD.
