*SBU (2-digit) / PG (3-digit) / PUG (3-digit) / Type (10-digit)

2 Type of change

- Modified label
- Improved identification product configuration code on the label

3 Detailed description of change

The following table describes the modifications applied to the new packaging label. All listed product types share the same packaging label design. To better visualize the modifications, colours and numbers were added to this chapter to cluster information into sections (the colours and white numbers are therefore not part of the new label layout). An old and a new label has been added as an example for visualization.

Product identification section: To improve readability, we clustered all the information concerning product identification in this group. To increase clarity, we introduce our product configuration code into this area. 1

- Product Type: Has been updated for some part numbers (harmonize description & improve identification).
- Configuration Code: No changes
- Part Description: Has been updated for some part numbers (harmonize description & improve identification).
- → For details on text/ content that has been changed please see list attached to this PCN.

Product Change Notification					PCN 3 Phase Filter Global Labeling Pt.4		
owner	creation date	release date	released by	change order no	rev	page	D10-058-311
segatro	10.06.2021	16.06.2021	blumhe	2022173	A	1 of 2	

- Product conformity section:** Identical Information, slightly rearranged. SCHURTER address added, Pb free logo removed. 2
- Product logistics section:** Identical information, slightly rearranged. "Date" changed to "Date Code". 3
- Product approval section:** Identical information was slightly rearranged. 4
- Additional texts section:** Identical information, slightly rearranged. 5
- Origin information section:** Identical information, slightly rearranged. Factory Code identifier "FC" added. 6

Old label	New label

4 Reason of change

SCHURTER improves and modernizes the label printing process to increase standardization and harmonize processes throughout all SCHURTER factory locations.

5 Release date

Packaging labels will be changed earliest in week 28/2021 (Date code 2128 or higher on the label).

6 Impact of change and recommended action

Form	No	
Fit	No	
Function	No	
Manufacturing	No	
Label	Yes	No actions required since bar code & 2D-code are not affected by the change.
Packaging	No	

7 Reference Documents / Attachments

Kind of document	Remarks
List of affected articles	List contains a comparison of text/ content between old and new labels in reference to chapter 3. "Product identification section"
